All Residents

ADVISORY ON EXTERNAL FACADE

The Management noticed that some residents were hanging their laundry over the balcony railing during sunny day. A few units have installed a cloth hanger (retractable) on the balcony ceiling. Residents who had installed the cloth hanger have been notified to remove it.

We would also like to remind all residents that all roller blinds, grille / screen and solar films are to obtain and match the standard designs and colours at the Management Office as per Appendix 3 of the House Rules. Roller Blinds must be kept within your balcony boundary. It should not be resting beyond the balcony railing as “dirty” water may drop/flow into the swimming pool &/or to your lower neighbour units.

Please take note that hanging any washing, clothing or other article at the Common Area and/or any external part of the units (eg. Balcony), thereby affecting the aesthetics of the building is not permitted as per the Guidelines on Estate Living stated in the House Rules.

Thank you for your understanding and co-operation.

For and on behalf of MCST Plan No 4409
