### EXCESSIVE DOG BARKING

For the past weeks, we have been receiving feedbacks about dog barking frequently and excessively in the early morning and as late at night beyond 11 pm. It has translated into a nuisance to some residents here. The barking has created unnecessary noise pollution and disturbances to their sleep period.

We would like to request dog owners to manage your pets and attend to their needs promptly so as to minimize excessive barking.

If you not at home please ensure that you provide adequate food and water to your pets and locate them at a comfortable area. In addition, if your pets are sensitive to human traffic and weather, you may wish to relocate them away from the balcony too.

We kindly ask all dog owners to look after your pets responsibly so that your animal companions will not become nuisance to others. For further information, please also refer to our house rules on Pets. Thank you.

**Enjoy a Clean Environment!**  
Please clean up your dog's poo!  
享受干净的环境! 请清理爱犬的粪便!

துயிலைமயமான சுற்றுச்சூழலில் அனலி பறித்தல் தடுக்கவும்!  
கூடுதலாகவும் உயிர்நிலை நரகிகள் மல துறைச் சுத்தப்படுத்தவும்!

**动物的排泄物**  
若不加清理，会导致：  
- 异味  
- 不小心弄脏衣物  
- 散播传染疾病和寄生虫疾病  
引引来苍蝇

**கழிவைச் சுத்தப்படுத்தாமல்**  
எயிடமிடவில்லாதால்  
- அசௌகரியங்கள்  
- அனலி படுகல்  
- சுற்றுச்சூழலில் அழகுற்றுபடுகல்  
- தொற்று மலநோய் சாட்டுவோர்  
(இராய்களில்) பரவல்  
- பூச்சிகள் (தொல்லை)

**Animal Waste**  
If left uncleaned, causes  
- Smell nuisance  
- Staining  
- Accidental soiling  
- Transmission of infectious and parasitic diseases  
- Fly nuisance

Staining
